REPORT OF THE BOARD OF MANAGEMENT

The Board of Management of Coma 18 Joint Stock Company and its subsidiary (hereinafter referred to as "the Company") presents its report and the Company's consolidated financial statements for the accounting period from 1 January 2026 to 30 June 2026.

Overview

Coma 18 Joint Stock Company is a joint stock company converted from a State-owned enterprise under Decision No. 2102/QĐ-BXD dated November 11, 2005 of the Ministry of Construction. The company operates under the Joint Stock Company Business Registration Certificate No. 0500236860, first registered on December 21, 2015, and the changed business registration certificates issued by the Hanoi Department of Planning and Investment.

The Company's main activities are:

- Real estate business, land use rights owned by the owner, user, or leased;
- Construction of other civil technical works; Construction and installation of urban, industrial, civil, transportation, irrigation, port infrastructure, and architectural infrastructure of industrial zones, urban areas, power line projects, and transformer stations;
- Construction of bridges, ports, dikes, and culverts;
- Construction supervision and completion of civil and industrial projects;
- Investment consulting, management, and implementation of construction projects (excluding legal, tax, financial, and auditing consulting);
- Waste treatment (business operations must comply with legal regulations);
- Business development of housing and urban technical infrastructure.

The Company's Head Office is located at 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City.

The Board of Directors, The Board of Management, and Supervisory Board during the period and as at the date of this report are as follows:

Report of the Board of Management (continued)

Auditor

NVA Auditing Company Limited has performed the review on the consolidated financial statements for the accounting period from 1 January 2026 to 30 June 2026 for the Company.

Statement of the Board of Management's responsibility in respect of the consolidated financial statements

The Board of Management is responsible for the consolidated financial statements of each financial year which give a true and fair view of the state of affairs of the Company and of its operation results and cash flows for the year. In preparing those financial statements, the board of management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates reasonably and prudently;
- Prepare and present the consolidated financial statements in compliance with current accounting standards, accounting regimes, and relevant regulations;
- Prepare the financial statements on going concern basis unless it is inappropriate to presume that the Company will continue in business.
- Establish and implement an effective internal control system to minimize the risk of material misstatement, whether due to fraud or error, in the preparation and presentation of the consolidated financial statements.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclosed, with reasonable accuracy at any time, the financial position of Company and to ensure that the accounting records comply with the registered accounting system, It is responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Management of the Company approves and commit that the attached consolidated financial statements give a true and fair view of the Company's consolidated financial position as at 30 June 2026, as well as the results of its consolidated operations and consolidated cash flows for the accounting period from 1 January 2026 to 30 June 2026 then ended, in accordance with Vietnamese accounting standards, accounting regime for enterprises, and compliance with relevant legal regulations

On behalf of The Board of Management

Nguyễn Trọng Hien
General Director

Ha Noi City, 27 August 2026

No: 29.06.3.2/26/BCTC/NVA

INTERIM FINANCIAL INFORMATION REVIEW REPORT

To: Shareholders, The Board of Directors and the Board of Management
Coma 18 Joint Stock Company

We have reviewed the accompanying interim consolidated financial statements of Coma 18 Joint Stock Company and its subsidiary, prepared on 27 August 2026, from page 05 to page 46, which include: the consolidated statement of financial position as at 30 June 2026, the consolidated income statement, the consolidated cash flow statement for the accounting period from 1 January 2026 to 30 June 2026 then ended, and the notes to the consolidated financial statements.

The Board of Managements' responsibility

The Board of Management is responsible for the preparation and the presentation to give a true and fair view on the interim consolidated financial statements of the Company in accordance with the prevailing Vietnamese Accounting Standards and System as well as other related regulations, and is responsible for internal control which the Management realizes that it is necessary to ensure the preparation and the presentation of the interim consolidated financial statements to be free from material errors due to frauds or mistakes.

Auditor's responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We performed the review in accordance with Vietnamese Standards on review engagements No. 2410 - Review of interim financial information performed by the entity's independent auditors.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical procedures and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Auditing Standards and, accordingly, does not enable us to obtain assurance that we will become aware of all Material issues may be discovered during an audit. Accordingly, we do not express an audit opinion.

Auditor's conclusion

Based on the results of our review, we have not found anything that causes us to believe that the attached interim consolidated financial statements do not give a true and fair view in all material respects of the financial situation of the Company as at 30 June 2026, consolidated results of its operations and consolidated cash flows of the unit in the accounting period from 1 January 2026 to 30 June 2026 then ended, in accordance with accounting standards, Vietnamese accounting regime and legal regulations related to the preparation and presentation of interim consolidated financial statements.

4. The cycle of the Company's business

The Company's normal production and business cycle is carried out within a period of no more than 12 months. Construction works and investment projects have production and business cycles according to construction contracts and project duration.

5. Company's structure

- As of June 30, 2026, the Company has the following affiliated units:

+ Real Estate Trading Floor Branch:

Address: Km 10 Nguyen Trai Street, Khuong Dinh Ward, Hanoi City.

+ Construction, Industry and Transportation Branch:

Address: No. 135 Tran Phu, Ha Dong Ward, Hanoi City.

+ Thanh Oai Branch:

Address: Thanh Oai Industrial Park, Km3 QL21B, Binh Minh Commune, Hanoi City.

+ Trade and Construction Branch:

Address: No. 38 Nguyen Chanh (New Phung Hung Street), Ha Dong Ward, Hanoi City.

+ Thanh Oai Industrial Park Branch – Coma 18 Joint Stock Company:

Address: Thanh Oai Industrial Park, Km3 QL21B, Binh Minh Commune, Hanoi City.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)**

- As at 30 June 2026, Total number of subsidiaries: 01

Number of subsidiaries consolidated: 01

Number of subsidiaries not consolidated: 0

The list of subsidiaries consolidated using the cost method is as follows:

Name of Subsidiary	Address	Charter Capital	Ownership Percentage	Voting Rights Percentage
Ifood Green Food Joint Stock Company	Lots CN 27-28, Dai Lam Industrial Cluster, Tan Dinh Commune, Bac Ninh Province	2,000,000,000	60%	60%

6. The number of employees

The number of employees of the Company as at 30 June 2026 was 36 (As at 31 December 2025 was 35).

7. Declaration on the comparability of information on the consolidated financial statements

During the period, the Company made no changes to its accounting policies compared to the previous period, thus there is no impact on the comparability of the information in the consolidated financial statements.

II. FISCAL YEAR AND STANDARD CURRENCY UNIT USED IN ACCOUNTING**1. Fiscal year**

Fiscal year of the Company is from 1 January to 31 December annually.

2. Standard currency unit used in accounting

The standard currency unit used in accounting is Vietnam dong (VND).

III. ACCOUNTING STANDARDS AND SYSTEM APPLIED**1. Accounting system**

The Company applies the Vietnamese Accounting System for enterprises issued under Circular No. 99/2025/TT-BTC dated 27 October 2025 ("Circular 99"), Circular No. 202/2014/TT-BTC dated 22 December 2014 and Circular No. 43/2026/TT-BTC dated 20 April 2026, amending and supplementing some articles of Circular No. 202/2014/TT-BTC issued by the Ministry of Finance.

2. Statement on the compliance with the accounting standards and system

The Company has applied the Vietnamese Accounting Standards and the related guiding documents issued by the State. The consolidated financial statements have been prepared and presented in full compliance with all provisions of each standard, the circulars guiding the implementation of the standards, and the current Vietnamese Accounting System.

IV. ACCOUNTING POLICIES APPLIED**1. Basis for preparing consolidated financial statements**

Consolidated financial statements are prepared on an accrual basis (except for information related to cash flows).

The consolidated financial statements include the financial statements of the parent company and its subsidiary. A subsidiary is an entity controlled by the parent company. Control exists when the parent company has the power to direct the financial and operating policies of an entity to obtain economic benefits from its activities. In evaluating control, the potential voting rights that are currently exercisable or may be converted are considered. The operating results of subsidiaries

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

acquired or disposed of during the year are presented in the consolidated statement of profit or loss from the acquisition date or until the disposal date of the investment in the subsidiary.

If the accounting policies of a subsidiary differ from those applied by the parent company, the subsidiary's financial statements will be appropriately adjusted before consolidation.

Balances in the statement of financial positions between companies within the same group, intercompany transactions, and unrealized internal profits arising from these transactions are eliminated when preparing consolidated financial statements. Unrealized losses arising from intercompany transactions are also eliminated unless the cost of the transaction cannot be recovered.

The minority interest represents the portion of the subsidiary's net assets and profits not held by the parent company's shareholders and is presented as a separate item in the consolidated statement of profit or loss and consolidated statement of financial position. Minority interest includes the value of the minority shareholders' interests at the initial business combination date and their share of changes in equity since the business combination date. Losses attributable to the minority interest that exceed their share of the subsidiary's equity are allocated to the Group's equity unless the minority shareholders have an obligation and the ability to compensate for the loss.

2. Business combinations

Business combinations are accounted for using the purchase method. The cost of a business combination is measured at the fair value, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, together with any directly attributable costs of the business combination. The identifiable assets acquired, liabilities assumed, and contingent liabilities incurred in a business combination are recognized at their fair values at the acquisition date.

The excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities, and contingent liabilities of the acquiree as at the acquisition date is recognized as goodwill. If the cost of the business combination is less than the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities, and contingent liabilities, the difference is recognized directly in the income statement as a gain in the period in which the acquisition occurs.

3. Principles to determine cash and cash equivalents

Cash includes cash at the fund, demand deposits in bank, monetary gold used with value storage functions, excluding gold classified as inventory used for the purpose of raw materials, materials to manufacture products or goods for sale.

Cash equivalents are short-term investments with a maturity of no more than 3 months from the date of purchase, easily convertible into a specified amount of money and without much risk in conversion into money.

4. Accounting principles for financial investments

a) Principles of recording loans

Loans are recorded as the current amount of loans under contracts between parties but are not traded or sold on the market like securities.

Lendings are determined at cost less allowance for doubtful debts. Provision for doubtful debts of loans of the Company is appropriated in accordance with current accounting regulations.

b) Investment in equity instruments of other entities

Investments in equity instruments of other entities represent equity investments where the Company does not have control, joint control, or significant influence over the investee.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

Investments in equity instruments of other entities are recorded at their original cost, less any provision for impairment of investments.

c) **Provisions for impairment of investments equity contributions to other entities**

Provisions for impairment of investments are made when there is clear evidence indicating a decline in the value of these investments at the end of the accounting period in which the consolidated financial statements are prepared.

Any increase or decrease in the provision for investment impairment is recognized in financial expenses.

5. Principles of recognizing trade receivables and other receivables

Receivables are presented at their carrying amount, net of any provision for doubtful debts.

The classification of receivables as trade receivables or other receivables is based on the following principles:

- Trade receivables represent amounts arising from commercial transactions, including amounts receivable from consigned export sales on behalf of other entities.
- Other receivables refer to non-commercial amounts that are not related to purchase and sale transactions.

The provision for doubtful debts reflects the estimated value of receivables that the Company anticipates may be lost or unrecoverable as of the end of the accounting period. Any increase or decrease in the balance of the provision account is recorded as administrative expenses in the consolidated income statement.

Receivables are categorized as short-term or long-term based on their remaining maturity periods.

6. Principles for inventory recognition

Inventories are recognized at the lower of cost and net realizable value.

The cost of inventories is determined as follows:

- Raw materials and merchandise: Includes purchase costs and other direct costs incurred to bring the inventories to their current location and condition.
- Products: Includes the main raw material costs, direct labor costs, and related general manufacturing costs allocated based on normal operating levels.
- Work in progress: Includes main raw material costs, direct labor costs, and general manufacturing costs.

Net realizable value is the estimated selling price of inventories at the end of the period minus the estimated costs to complete and sell them.

The cost of inventories is calculated using the weighted average method and is accounted for on a perpetual basis.

Provisions for inventory devaluation are made for each inventory item whose original cost exceeds its net realizable value. For unfinished services, provisions are calculated for each type of service with distinct pricing. Any increase or decrease in the balance of the provision for inventory devaluation that needs to be made as of the end of the financial year is recognized in the cost of goods sold.

7. Principles for the recognition and depreciation of tangible and intangible fixed assets

Fixed assets are presented at historical cost less accumulated depreciation. The historical cost of fixed assets includes all costs incurred by the enterprise to acquire the fixed assets until they are in a condition ready for use. Subsequent expenditures are only added to the historical cost of fixed assets if these expenditures certainly increase the future economic benefits from using the asset.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)**

Expenditures that do not meet this condition are recognized as production and business expenses in the period.

When fixed assets are sold or disposed of, the historical cost and accumulated depreciation are written off, and any gains or losses arising from the disposal are recognized in income or expenses for the year.

Depreciation of assets is calculated using the straight-line method. The estimated depreciation periods are as follows:

Type of asset	Depreciation period (years)	
	Current period	Previous period
- Buildings and structures	07 – 45	07 – 45
- Machinery and equipment	06 – 10	06 – 10
- Transportation means	08 – 09	08 – 09
- Management tools	05	05
- Brand value	10	10

The historical cost of fixed assets and the depreciation period are determined in accordance with Circular No. 45/2013/TT-BTC dated April 25, 2013, issued by the Ministry of Finance, providing guidance on the management, use, and depreciation of fixed assets, and other relevant regulations.

8. Principles for the recognition and capitalization of borrowing costs

Borrowing costs are recognized as production and business expenses in the year they are incurred, except for borrowing costs directly related to the investment in the construction or production of unfinished assets, which are included in the value of such assets (capitalized) when the conditions set forth in Vietnamese Accounting Standard No. 16 'Borrowing Costs' are met.

Borrowing costs directly related to the investment in the construction or production of unfinished assets that are capitalized include interest on borrowings, allocation of discounts or premiums upon the issuance of bonds, and incidental costs arising from loan processing procedures.

9. Principles for the recognition and allocation of allocation pending cost

Allocation pending cost related only to production and business costs within the year are recognized as short-term allocation pending cost and allocated to production and business expenses of the same year.

The calculation and allocation of long-term allocation pending cost to production and business costs for each accounting period are based on the nature and magnitude of each type of expense to select a reasonable allocation method and basis. Allocation pending cost are gradually allocated to production and business expenses using the straight-line method.

10. Principles for the accounting of business cooperation contracts

Joint venture capital contributions are agreements based on contracts under which the Company and participating parties undertake economic activities under joint control. Joint control refers to the requirement that strategic decisions concerning the financial and operating policies of the joint venture entity must be unanimously agreed upon by all joint controlling parties.

In cases where a member company directly engages in business operations as per the joint venture agreements, the capital contributions to jointly controlled assets and any shared liabilities incurred with other joint venture partners from the operations of the joint venture are accounted for in the Company's consolidated financial statements and classified based on the nature of the arising economic transactions. Liabilities and costs directly related to the capital contributions in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of product shares distributed from joint venture operations, as well as the related costs incurred, is recognized when it is certain that economic benefits from these transactions will be received by or distributed from the Company, and such benefits can be measured reliably.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

Joint venture agreements involving the establishment of an independent business entity with joint venture partners are referred to as jointly controlled business entities.

11. Principles for the recognition of liabilities and accrued expenses

Liabilities and accrued expenses are recognized for amounts payable in the future related to goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of liabilities into trade payables and other payables is performed according to the following principles:

- Trade payables reflect the amounts payable of a commercial nature arising from transactions of purchasing goods, services, assets, and the seller is an independent entity from the Corporation, including amounts payable upon import through a trustee.
- Accrued expenses reflect the amounts payable for goods and services received from the seller or provided to the buyer but not yet paid due to the absence of invoices or incomplete accounting documents, and amounts payable to employees for vacation wages, production, and business expenses to be accrued.
- Other payables reflect the amounts payable that are not of a commercial nature, not related to the transactions of buying, selling, or providing goods and services.

12. Principles for the recognition of dividends and profit payables

Dividends and profit payables are recognized for the future obligations to pay dividends or distribute profits (in the form of cash or non-monetary assets) and reflect the settlement status of cash dividends or profit distributions to the Corporation's shareholders and capital contributors..

The Corporation recognizes a liability for dividends or profits at the point when the entity no longer has the discretion to avoid the obligation to pay such dividends or profits to its shareholders and capital contributors in accordance with relevant laws. The determination of the timing and payment of dividends or profits is as follows: For entities subject to securities regulations, the timing at which the investee no longer has the right to refuse the dividend payment is determined in accordance with the prevailing securities laws.

13. Principles for the recognition of borrowings and finance lease liabilities

The Company must monitor the repayment terms of borrowings and finance lease liabilities in detail. Borrowings and finance lease liabilities with repayment periods exceeding 12 months from the date of preparation of the consolidated financial statements are classified as long-term. Those due within the next 12 months are classified as short-term, allowing for proper payment planning.

For finance lease liabilities, the total lease liabilities recorded in the credit side of account 341 represent the total payment amount, calculated as the present value of minimum lease payments or the fair value of the leased asset.

Borrowings and liabilities denominated in foreign currencies must be converted into the accounting currency at the actual exchange rate at the time of the transaction;

- When repaying borrowings in foreign currency, the debit side of account 341 is converted at the actual book exchange rate applied specifically to each counterpart;
- When preparing consolidated financial statements, the balances of borrowings and finance lease liabilities denominated in foreign currencies must be revalued at the actual exchange rate on the date of financial statement preparation;
- Foreign exchange differences arising from repayments and end-of-period revaluations of borrowings and finance lease liabilities in foreign currencies are recognized in financial income or financial expenses.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

14. Principles of recognizing owners' equity

Owner's contributed capital

Owner's contributed capital is recognized based on the actual contributed capital of the shareholders.

Share premiums

Share premium is recognized as the difference between the issue price and the par value of shares during the initial issuance, additional issuance, the difference between the reissue price and the book value of treasury shares, and the equity component of convertible bonds upon maturity. Direct costs related to additional share issuance and reissuing treasury shares are deducted from the share premium.

Other owner's equity

Other capital is formed from additional business results, revaluation of assets, and the remaining value between the fair value of donated, gifted, or sponsored assets after deducting any applicable taxes (if any) related to these assets.

Profit distribution

Profit after corporate income tax is distributed to shareholders after appropriations to funds as per the Company Charter and legal regulations, and as approved by the General Meeting of Shareholders.

The distribution of profits to shareholders considers non-monetary items within undistributed post-tax profits that may affect cash flows and the ability to pay dividends, such as gains from revaluation of contributed assets, revaluation gains from monetary items, financial instruments, and other non-monetary items.

Dividends payable to shareholders are recognized as liabilities in the Company's consolidated statement of financial position following the resolution of the Annual General Meeting of Shareholders, the resolution of the Board of Directors, and the establishment of the record date for dividend entitlement by the Securities Depository Center.

Other funds

Other funds are established and utilized in accordance with the Company's Charter and the resolutions approved annually by the General Meeting of Shareholders.

15. Principles of revenue and income recognition

Revenue is recognized when the Company is likely to receive economic benefits that can be reliably measured. Revenue is determined at the fair value of the amounts received or to be received, after deducting trade discounts, sales returns, and allowances. The following specific conditions must also be satisfied before revenue is recognized:

Construction contract revenue

Construction contract revenue is reliably estimated as follows:

- For construction contracts where the contractor is paid according to the planned schedule: Revenue and expenses related to the contract are recognized based on the portion of work completed, as determined by the Company, at the end of the financial accounting period.
- For construction contracts where the contractor is paid based on the actual volume of work performed: Revenue and expenses related to the contract are recognized based on the portion of work completed, confirmed by the investor, and reflected in the issued invoice.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

Sales Revenue

Sales revenue is recognized when the following conditions are simultaneously met:

- Most of the risks and rewards associated with ownership of the goods or products have been transferred to the buyer;
- The Company no longer retains control or managerial involvement in the goods as the owner;
- Revenue can be reliably measured;
- The Company has received or will receive economic benefits from the sales transaction;
- Costs related to the transaction can be determined.

Revenue from property rental activities

Operating lease revenue must be recognized on a straight-line basis throughout the lease term, regardless of payment method.

Future lease payments on operating leases are tracked by time paid.

Service Revenue

Service revenue is recognized when the outcome of the transaction can be reliably measured. For services spanning multiple periods, revenue is recognized for the year based on the portion of work completed as of the date of preparation of the consolidated statement of financial position for that period. The outcome of a service transaction is determined when the following conditions are met:

- The amount of revenue can be measured reliably. If the contract grants the customer the right to return the service under specific conditions, revenue is recognized only when such conditions no longer exist and the customer no longer has the right to return the service;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The stage of completion of the transaction at the reporting date can be measured reliably;
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

The completed portion of the service is determined using the method of work completion assessment.

Revenue from land leasing with completed infrastructure development

Revenue from leasing land with developed infrastructure represents the income from subleasing land use rights with completed technical infrastructure at Kim Thanh Industrial Park, Hai Duong, which is recognized in full at the time of lease commencement.

Interest Income

Interest income is recognized on an accrual basis and is determined based on the balance of deposit accounts and the actual interest rates for each period.

Dividends and Profits Received

Dividends and profits are recognized when the Company becomes entitled to receive them from its investment. Dividends received in the form of shares are only monitored as an increase in the number of shares and are not recognized for their value.

Revenue Deductions

This category reflects adjustments reducing sales revenue and service revenue incurred during the period, including trade discounts, sales returns, and allowances. It does not reflect taxes deducted from revenue, such as output VAT calculated using the direct method.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

Revenue adjustments are conducted as follows:

- Trade discounts, sales returns, and allowances incurred in the same period as the consumption of products, goods, and services are deducted from the revenue of that period;
- For products, goods, and services sold in prior years, if trade discounts, sales returns, or allowances occur in subsequent periods, the revenue reduction is recorded according to the following principles:
 - + If the adjustments occur after the consumption of products, goods, and services in prior years but before the issuance of the consolidated financial statements, these adjustments are treated as post-statement of financial position events requiring adjustment. They are recorded as revenue reductions in the consolidated financial statements of the reporting period (prior year)
 - + If the adjustments occur after the issuance of the consolidated financial statements, the revenue reduction is recorded in the reporting period during which the event occurs (current period).

16. Principles for the recognition of cost of goods sold

The cost of goods sold reflects the cost of products, goods, services, and investment properties sold during the year, as well as the production cost of construction products (for construction enterprises). It also includes costs associated with the operation of investment properties, such as depreciation, repair expenses, operational costs for leasing investment properties under operating leases (if not significant), and costs for disposing of or liquidating investment properties...

The provision for inventory devaluation is included in the cost of goods sold, based on the quantity of inventory and the difference where the net realizable value is lower than the original cost. When determining the inventory quantity subject to devaluation, the accountant must exclude the inventory already under signed sales contracts (with a net realizable value not lower than its book value) that have not yet been delivered to the customer, provided there is reliable evidence that the customer will not terminate the contract.

17. Principles for the recognition of financial expenses

Financial expenses include costs or losses related to financial activities, such as: Costs or losses from financial investments, borrowing and lending costs, expenses from contributions to joint ventures or associates, losses from the transfer of short-term securities, expenses incurred from securities trading transactions, provisions for devaluation of trading securities, provisions for losses from investments in other entities, losses from foreign currency sales, and exchange rate losses...

18. Principles for the recognition of selling expenses and administrative expenses

Sale expenses reflect the actual costs incurred in the process of selling products or goods or providing services, including the costs of offering goods, introducing products, advertising products, sales commissions, expenses for product and goods warranty (except for construction activities), expenses for preservation, packing and transportation,...

Management expenses reflect general management expenses of the enterprise, including expenses for salaries of employees of the enterprise management sections (salaries, wages, allowances ...); social insurance, health insurance, trade union funds, unemployment insurance of enterprise managers; expenses for office materials, labor tools, depreciation of fixed assets used for enterprise management; land rent, excise tax; provision for bad debts; Outbound services (electricity, water, telephone, fax, property insurance, fire and explosion); Other monetary expenses (guest reception, customer conference ...).

19. Principles and methods for recognizing corporate income tax expenses

Corporate income tax expenses recorded in the income statement include current corporate income tax expenses and deferred corporate income tax expenses.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS

Notes to the consolidated financial statements (continued)

Current corporate income tax expenses are determined based on taxable income and the corporate income tax rate applicable for the current period.

Deferred corporate income tax expenses are determined based on temporary differences between tax and accounting, non-deductible expenses, adjustments for non-taxable income, and carried-forward losses.

20. Segment reporting

Segment reporting include a business segment or a geographical segment.

A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

21. Financial instruments

Initial Recognition

Financial Assets: On the initial recognition date, financial assets are recorded at cost, including directly attributable transaction costs related to the acquisition of the financial assets. The Company's financial assets include cash and cash equivalents, short-term receivables, other receivables, and held-to-maturity investments.

Financial Liabilities: On the initial recognition date, financial liabilities are recorded at cost, net of directly attributable transaction costs related to the issuance of those financial liabilities. The Company's financial liabilities include payables to suppliers, other payables, accrued expenses, and borrowings.

Subsequent Measurement

Currently, there are no regulations on the revaluation of financial instruments after initial recognition.

22. Related parties

Parties are considered a related party of the Company if one party has the ability to control the other party or otherwise significantly influence the other party in making financial decisions and operate, or when the Company and the other party jointly or severally control.

In considering related parties relationship, the nature of relationship is focused more than the legal form.

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)****VII. OTHER INFORMATION****1. Subsequent events information**

According to the Resolution of the Annual General Meeting of Shareholders dated 05 April 2022, the Meeting approved the plan to privately issue 55,000,000 shares (equivalent to a charter capital of VND 550 billion at par value) to professional securities investors.

Furthermore, there were no subsequent events occurring after 30 June 2026 up to the date of this report that have not been considered for adjustments or disclosed in the consolidated financial statements for the accounting period from 01 January 2026 to 30 June 2026.

2. Commitments

Pursuant to the agreement between the Company and Construction Machinery Corporation - JSC dated April 11, 2023, as recognized by the Hai Ba Trung District People's Court and Minutes of agreement dated March 17, 2026, both parties agreed that the Company would repay the loan principal, interest, construction advances, and other amounts owed to Construction Machinery Corporation - JSC, totaling VND 22,267,615,442. The company has committed to paying all debts to Construction Machinery Corporation - JSC according to the following specific schedule:

- No later than 31 March 2026: VND 1,000,000,000.
- No later than 30 June 2026: VND 1,000,000,000.
- No later than 30 September 2026: VND 1,000,000,000.
- No later than 31 December 2026: VND 1,000,000,000.
- No later than 30 June 2027: Settlement of the remaining outstanding balance.

If the Company fulfills its repayment obligations as committed, no interest will be charged. Conversely, late payments will incur interest, calculated from April 4, 2023, at the lending rate applied by Joint Stock Commercial Bank for Investment and Development of Vietnam (BIDV) for loans provided to Construction Machinery Corporation - JSC at the time of interest calculation.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)****5. Secured assets**

The Company has pledged fixed assets to secure the bank loans (see Notes V.9, and V.12). As at 30 June 2026, the Company does not hold any collateral from other entities.

6. Credit risk

Credit risk is the risk that partners will not perform its obligations under the provisions of a financial instrument or contract leading to financial losses. Company has credit risk from its business activities (primarily accounts receivable for customers) and from its own financial operations, including bank deposits and other financial instruments.

Account receivable: The management of customer credit risk based on Company policies, procedures and process control of the Company relating to the management of customers credit risk.

Customer receivables which are unpaid are regularly monitored. The analysis of the ability to be made redundant at the reporting date on the basis of each large customer. On this basis, Company does not have risk of credit concentration.

Bank deposits: Most bank deposits of Company shall be deposited at the prestigious banks in Vietnam. The Company found that concentrations of credit risk for bank deposits are low.

7. Liquidity risk

Liquidity risk is the risk that Company has difficulty in complete the financial obligations due to lack of capital. Liquidity risk of the Company arises mainly due to mismatch in the maturities of financial assets and financial liabilities.

Company manage liquidity risk through maintaining the ratio of cash and cash equivalents at the level that Board of Directors thought its sufficient to provide financial support for the business of Company and to minimize impact of changing cash flows.

Information maturities of financial liabilities of the Company based on the value without discounting payments under the contract as follows:

Unit: VND

	Under 01 year	From 01 year to 05 years	Total

Other payables	42,334,183,514	1,431,604,610,457	1,473,938,793,971

The Company believe that the risk level for payments to financial liabilities is low. The company can settle their current portion of debts from operating cash flow and the gain from financial liabilities on due dates.

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)****8. Market risk**

Market risk is the risk that fair value or future value of cash flows from financial instruments will fluctuate with changing of market prices. Market risk includes three types: foreign currency risk, interest rate risk and other price risk.

Foreign currency risk

Foreign currency risk is the risk that fair value or future cash flows of financial instruments will fluctuate with changes in the exchange rate.

Company management of exchange risks by considering the current market and expected the company to plan for the future trading in foreign currency. Company monitored the risks to assets and financial liabilities in foreign currency.

Interest rate risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate due to changes of market interest rates. The risk of changes in market interest rates of the Company primarily related to short-term deposits and loans.

The Company manages interest rate risk by closely monitoring market conditions relevant. by that Company will determine the appropriate interest rate policy for risk limited purpose Company.

The Company does not perform a sensitivity analysis for interest rate risk because interest rate changes at the reporting date is not significant.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to market price changes, other than changes in interest rates and exchange rates.

9. Other information

COMA 18 JOINT STOCK COMPANY AND ITS SUBSIDIARY

Address: 1st Floor, Westa Building, 108 Tran Phu, Ha Dong Ward, Hanoi City

FINANCIAL STATEMENTS**Notes to the consolidated financial statements (continued)****10. Information about going concern**

During the accounting period from 1 January 2026 to 30 June 2026, there were no activities or events that significantly affected the Company's ability to continue as a going concern. Therefore, the Company's financial statements are prepared on the assumption that the Company will continue to operate.

11. Comparative figures

The comparative figures are the figures in the consolidated financial statements for the fiscal year ended 31 December 2025, which have been audited, and the consolidated financial statements for the accounting period from 1 January 2025 to 30 June 2025, which have been reviewed. These figures are restated according to Circular 43/2026/TT-BTC dated April 20, 2026, amending and supplementing some articles of Circular 202/2014/TT-BTC issued by the Ministry of Finance, as follows:
